

How To Make Invisible Ink

Method #1: Lemon Juice

Squeeze lemon juice into a small bowl.

Write your message on a white piece of paper with the juice and wait for it to dry.

To see your message again, very carefully heat the paper over a stove top or light bulb until the message shows up in a very light brown. Warning: Do not touch the paper to the flame or light bulb!

Method #2: Baking Soda

Mix equal parts baking soda and water into a small bowl.

Get yourself a makeshift writing tool, like a paint brush, cotton swab, or tooth pick.

Using the mixture, write your message on a white piece of paper.

Wait for it to dry.

To see your message again, heat up the paper using a light bulb until the message shows up in brown. Warning: Do not touch the paper to the light bulb!

Method #3: Corn Starch

Heat 2 TBSP. of cornstarch and 1 TBSP. of water in a small pan and stir until they are completely dissolved.

Once it cools, use it to write your secret message on a white piece of paper.

Wait for the ink to dry.

To see your message again, make a solution that is 1 part iodine and 10 parts water. Brush the solution over the paper until your message is revealed.
