

Teen Book Reviews

Class act

by Jerry Craft

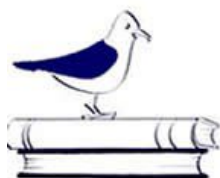

Genre: Graphic Novel

Summary: Drew and Jordan are going to a school with many white people. Jordan and Drew both have white friends but tension rises and so does being judged off the color of your skin. Everyone starts to see everybody else's perspective, but then Drew ghosts Liam which makes the tension even worse. I like the way the author shows perspective from black people and from white people. The author also puts examples of assigning someone's role because of their skin color which really puts you in a perspective of a black person in 2020. I don't see many flaws because the book is balanced with humor, and perspective. I think teens will like this book very much because it gives you

perspective and its a fun book meaning that is has humor.
