

Teen Book Reviews

Joe Biden : 46th US President
by Stephen Currie

Genre: Non-Fiction

Summary: In January 2021, Joseph Robinette Biden Jr. was elected as America's 46th president. Biden's rise to presidency follows him being a United States Senator and the Vice president of 44th president, Barack Obama. His electoral win brought joy and cheerfulness to many throughout the nation. Biden, being a person from not much money or political values, had a plan to make the United States a place for many to live freely. I personally believe this book was well written for those wanting a brief, but detailed description of the 46th president. Without going too in depth and wordy to the point that it is confusing to read, the writing provides

enough information to retain new knowledge and comprehend what is being read. I believe teens may enjoy this book as a light, quick read. I would recommend this book to those who are interested with history, especially of the US and its presidents.

Rating: 4 out of 5
