

READY-TO-BUILD STEAM CLASSROOM KITS

Educators checkout kits specific for each grade, K-6. Kits include tools and programming ideas for an entire classroom working in small groups of 3-5 students, or 7-10 students working independently.

Ask for a youth librarian to introduce the kits in your class (30-45 minutes) or contact a youth librarian to arrange pick up/delivery.

Keep the kits for up to one month.
Available first-come-first-served.
