Foul Lady Fortune

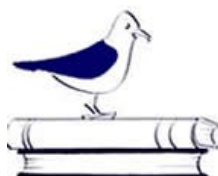

by Chloe Gong

Genre: Mystery/Thriller

Summary: As two ill-fitted spies must put on a show of marriage, their pasts create issues that seem to conflict with each others interests. Rosalind is an "immortal", healing immediately while Orion comes from a notable family, taking place a few decades in the past in China, the story discusses politics and gang dynamics. At the end the division between sides becomes unclear. The plot is written smoothly with good planning and foreshadowing, the writing style develops the characters and their emotions and creates people who are complex. I would recommend this book to enjoyers of sci-fi, mystery, and crime, if you want to be exposed to some Chinese culture it is also interesting.
