WED. JUNE 18 | 1:30 and 6:30

Told from the perspective of a cyborg created to protect humans on a research mission, the cyborg, which calls itself "Murderbot," has gained independence by overriding its programming and governor unit. Rather than focusing on its security duties, it prefers binge-watching soap operas. As it spends more time with a group of humans, it starts to experience emotions, making it uncomfortable and uncertain about its role.
