

Understanding Cybersecurity and Online Fraud

**Wednesday, November 4, 2026
7 PM via Zoom**

Are you prepared for the latest trends in online fraud?

This interactive presentation unpacks phishing, identity theft, and financial scams while providing practical tips to enhance your digital security. Participants will learn how to recognize and respond to fraudulent activities, adopt essential online practices, and discover modern technological solutions designed to prevent fraud. We will also cover cybersecurity basics, unpack some of the largest global cybercrimes in history, and offer insights into emerging future risks and challenges.

About Our Presenter: Eddi Khaytman, MBA, is the owner of PromoAmbitions LLC, an AI consultant, and a skilled web developer with a rich background in cybersecurity.
