How Do Airplanes Work? Educational Video for Kids from Brain Candy TV

Move

Blast Off!

Ten, nine, Eight, Seven, six, five, four, three, two, one,
Blast off (crouch, then jump up)!

In my rocket ship I'll fly
Up so high into the sky (pretend to fly around).

Touch a star or maybe two, (reach up and point finger pretending to touch)

Even land upon the moon (jump and land)!

And when I'm through,
I'll turn around (turn).
Instead of up, I'll then go down (sit down)!

Play with Numbers - Gross Motor Number Game from Learn Play Imagine

Use sidewalk chalk to draw clouds with numbers inside. Repeat the numbers a few times each. Take turns calling out numbers and pretend you are a bird or an airplane and fly to the number called. Can you fly through all the number 5s? Can you count as you fly? What other creature or machine could you pretend to be?

Sing

I'm a Little Airplane
(Tune: "I'm a little teapot")

I'm a little airplane in the sky.
I start out low; then I fly up high.
When it's time to land, my wheels come down,
And then I gently touch the ground.
